CAREER OBJECTIVE

Motivated Computer Science student at New Horizon College of Engineering seeking an internship opportunity to apply my programming skills in Java, C, HTML/CSS, and hands-on project experience. Eager to contribute, learn, and grow in a professional software development environment.

EDUCATION

New Horizon College of Engineering, Bangalore 2024 – 2028

Bachelor of Engineering – Computer Science (In Progress)

TECHNICAL SKILLS

Programming Languages Java, C Programming	**Web Technologies** HTML, CSS, JavaScript (Basic)	**Tools & Platforms** Git, GitHub, Linux, MS Office
Data Structures DSA (Learning)	**Databases** Firebase Realtime Database	**Other** File Management, Typing

PROJECTS

ISKCON Attendance Tracker 2026

Web App | HTML, CSS, JavaScript, Firebase Realtime Database, Netlify

- Built a real-time attendance tracking web application for an ISKCON weekly program.
- Integrated Firebase Realtime Database for live data sync without page refresh.
- Deployed the app on Netlify with a clean, mobile-friendly HTML/CSS interface.
- Enabled the organization to track weekly attendance efficiently, replacing manual records.

Skin Disease Prediction System 2026

ML Project | Python, MobileNetV2, TensorFlow/Keras, Google Colab, HAM10000 Dataset

- Developed an AI-powered skin disease classification model using MobileNetV2 transfer learning.
- Trained on the HAM10000 dataset with an 11-step pipeline including preprocessing, training, and evaluation.
- Implemented single-image prediction with confidence scores for 7 skin condition classes.
- Achieved strong validation accuracy by leveraging pretrained ImageNet weights and fine-tuning.

LANGUAGES

English – Native / Fluent **Japanese** – Basic / Conversational

STRENGTHS

Quick Learner | Problem Solving | Team Collaboration | Attention to Detail | Self-motivated
